A decision to join the American Federation of State, County and Municipal Employees, Local 251 is a wise choice. Under the auspices of this Union, you will be protected by a Collective Bargaining Agreement between Local 251 and the City of Omaha. The Union works for you the employee to give you a voice. The union makes it possible for you to stand up and let your voice be heard.

WHY SHOULD YOU JOIN THE UNION?

Unions were formed so that they could have a say over their wages, hours, working conditions and the many other problems that arise in the relationship between a worker and employer. Union contracts provide far more protections for workers than state and federal laws. Most states follow a legal doctrine called “employment at will” and non-union workers can be fired for reasons that might be arbitrary or for no reason at all. Joining the Union helps to level the playing field between The City of Omaha and our employees.

Belonging to the Union gives you rights under the law that you do not have as an individual. The City of Omaha must bargain with the Union over your wages, benefits, hours and working conditions. These are things they cannot take away from us. Belonging to the Union gives you the opportunity for your voice to be heard and for you to stand up for what is best for you.
